How does business funding work

Fast, flexible financing without traditional loan burdens. That supports businesses' sustainable growth without incurring interest rates.

Business Funding offers a cash flow injection when needed, controlled affordability, and tailored repayment options. It serves as a strong alternative to traditional funding, providing fast access to funds without the burden of interest rates.

Funding Amount

Varying on the size of your business we offer flexible funding options from £1000 to £1M. The upper limit of funding is determined by 80% of total monthly earnings.

Fixed Fee

Repayment amounts to an average of 10% of the initial amount, with no loan interest charged. That will be negotiated on your behalf by our personal funding assistant.

Repayment

Funding is repaid through a daily percentage deduction from Dojo card transactions, calculated based on a predetermined fixed percentage, commencing at just 5% of daily earnings. This arrangement offers you a secure and manageable repayment method.

We approve 9 out of 10 businesses for funding

The funding allowed me to expand my practice and hire employees.

Repayments were proportionate to my revenue, so I could invest confidently despite uncertainty caused by COVID.
